

### **MCDDES April 24· 2020 Conference Cancelled**

The world is experiencing the coronavirus epidemic and many organizations including MCDDES are feeling the effects of it. Our board is saddened to announce that we are cancelling the April 24<sup>th</sup> conference on *Meaning-Centered Grief Therapy (MCGT): Using the Concept of "Choice" in Coping with Loss* with Wendy Lichtenthal, PhD, FT. As many employers are currently doing, Memorial Sloan Kettering Cancer Center has banned all domestic work-related travel. This is the first time MCDDES has had to cancel a conference in 40 years. On a positive note, it looks promising that Wendy will be able to join us in the spring of 2021.....stay tuned.

The board thanks you for your continued support of the outstanding educational opportunities we offer twice a year. If you have questions, please reach out to [info@mcdes.org](mailto:info@mcdes.org).

We look forward to seeing you on October 2nd for speaker, Dr. Kenneth Hardy. The topic is not yet refined but Dr. Hardy spoke in 2006 and his evaluations were exceptional. You will not want to miss this one.

Be well.
